INFLUENZA VACCINE THE BEST PROTECTION FOR A SAFE & HEALTHY WORKPLACE FOR YOUR STAFF 2024

The 2024 Vaccine (Influvac Tetra) Flu vaccine will protect against four strains of flu virus – two influenza type A strains and two influenza type B

No requirement to have a gap between COVID-19 & flu vaccine

Can you afford to have staff off work with influenza?

Be proactive in your management of absenteeism.

We come to you and can help you schedule your vaccinations with minimal work disruption. Fast and efficient service alternatively book your staff into our Royal Oak rooms for their vaccine. Great for mobile workers

*BHS Vaccinators are Qualified Ministry of Health Approved vaccinators for the Workplace**

Flu vouchers available for remote working staff and those away on day of vaccinations

- Influenza can cause disruption in the workplace, e.g., absenteeism or impaired employee performance from illness.
- Influenza is highly contagious and tends to occur in epidemics (i.e. spreads rapidly)
- Flu vaccines are given on a voluntary basis to staff
- Vaccinations are required annually to ensure protection and should be given prior to the winter months in April/May/June to provide effective cover for the risk period.
